

# GD2 White Lined Chip Board

Our GD2 White Lined Chip Board is a one-side coated 100% recyclable board that is made from 100% recycled fibres. Its versatility, moisture resistance and low dust processing also make it the perfect material for panel filter frames for the filtration industry.

## About Us

Anderton Board are a family owned, independent UK business, established in 1850. Known for our flexibility and reliability, we serve as an agent, merchant and converter of solid board and packaging and represent some of the world's leading mills.
