

# PE Coated Solid Board Box

 Resistance to Moisture, Oil & Humidity	 100% Recyclable; From 100% Recycled Materials	 Food Safe
 Quick Assembly	 Shorter Freezing Times	 Reduction in Forklift movements compared to EPS
 Space & Capacity efficient - saves 7-10 times more space than EPS	 Suitable material for printing	 Reduction in shipping and transport costs

## Product Description

Our PE-coated solid board boxes are 100% recyclable, an environmentally friendly substitute for polystyrene (EPS) and plastic returnable crates. The coating makes our boxes moisture resistant, making them suitable for wet and frozen environments and can be flat packed to improve operational efficiency and ease capacity constraints.

<b>Sizes</b>	1/2 Stone, 1 Stone, 2 Stone, Euro
<b>Coating Options</b>	1 or 2 sided PE Coating
<b>Gluing</b>	4 Point Glued
<b>Hard Sizing</b>	Hard Sized Edges offered
<b>Colours</b>	1 or 2 sides White / Brown
