

PE Coated Solid Board Box

Our PE-coated solid board boxes are 100% recyclable, an environmentally friendly substitute for polystyrene (EPS) and other plastic alternatives. The coating makes our boxes moisture resistant, making them suitable for wet and frozen environments and can be flat packed to improve operational efficiency and ease capacity constraints.

About Us

Anderton Board are a family owned, independent UK business, established in 1850. Known for our flexibility and reliability, we serve as an agent, merchant and converter of solid board and packaging and represent some of the world's leading mills.
