

Shelf Ready Packaging

| | | |
|--|--|--|
|  Smooth surface allows for pristine printing |  100% Recyclable; From 100% Recycled Materials |  Optimum tray depth to optimise product presentation |
|  Suitable for a range of different retail products |  Easy to open - less tearing during set-up |  Less material used due to optimal product design |
|  We collaborate with leading European suppliers to deliver quality |  Less material torn & discarded compared to 2-piece corrugate alternatives |  Less energy and emissions than 2-piece corrugate alternatives |

Product Description

Our solid board Shelf Ready Packaging (SRP) is at the cutting edge of the SRP space. Its white lining and smooth finish boast an extremely high level of printability compared to corrugated alternatives – providing a premium, high-end feel. This investment allows our customer's products to gain a competitive edge on the shelves and boost their sales in retail.
