

Slip Sheets

Slip sheets are a lightweight, fibrebased alternative to wooden or plastic pallets. They reduce material costs, improve shipping efficiency, and enhance sustainability across the supply chain.

Key Advantages

- Up to 90% cheaper than wooden pallets
 - Reduce freight weight & fuel consumption
- Maximise container & warehouse utilisation
- No pallet returns, repairs or disposal costs

Performance Characteristics

- High tear resistance
- Excellent puncture durability
- Suitable for push-pull, clamp trucks & conveyors
- ISPM15 exempt (ideal for export)

Typical Applications

- Export shipping
 - Food & beverage logistics
- Manufacturing & engineering
- Retail & FMCG distribution
- Automated warehousing

Varieties

- 1200 × 800 mm
- 1200 × 1000 mm
- Bespoke sizes available

Thickness (Micron)

600, 700, 800, 1100

Grammage

440 – 820 g/m²
